"A young man on the way to self-improvement."

I used to ask myself that "How to make a website like this?" when I access a website, and this is the way me become a web developer. I'm always eager to learn new things, willing to embrace emerging technology. I hope to have the opportunity to work with your company in the future.

## SKILLS

### FRONTEND

VueJS SCSS Axios HTML CSS

Javascript

### BACKEND

PHP Laravel
